"Never before has this shocking material been heard in the United States. Most of these songs and speeches were taken from German radio stations after the war. Their joyous quality is frightening when one thinks of the murder and destruction that followed. It must never happen again in the civilized world.

RESEARCH:

The research by IFUD of Human Rights between 1994-1995 was not directed towards Audio Fidelity, Kinor or Dauntless International in New York, the American distributor of the vinyl record "Hitler's Inferno" in the period 1954-1961, but focuses on the Hitler's Inferno by Bill Forrest and Mary Jo Devlin. The speeches and songs of Nazi Germany "Die Lieder der NS-Zeit", (with the fall of the Third Reich in May 8 -1945, the Allied Control Council banned also the Deutschlandlied): The German government, Freistaat Bayern: (Kontrollratsgesetz Nr 2 vom 10-10-1945 und Kontrollrat Direktive Nr 50 vom 29-04-1947). Dieses Verbot ist aufgrund 86a StGB in Deutschland bis heute im Kraft. The fact the work "Hitler's Inferno" for the most part consists of songs and speeches from Nazi Germany doesn't matter. The artistic performance of the author "Bill Forrest" is definitely in 1945 "end of the War" presented to the American public in person: "Never before has this shocking material been heard in the United States. Most of these songs and speeches were taken from German radio stations after the war. Their joyous quality is frightening, when one thinks of the murder and destruction that followed. It must never happen again in the civilized world". The songs and speeches chosen by the author

"news politics and government are in 1945 free "public domain" transformed into a new anti-facist work "Hitler's Inferno",a new original work in the sense of the Copyright Law of the moral "personality right"of the author.Modification and changes of an original work is a violation of the author's moral rights,are not allowed.The Germans in Nazi-Germany destroyed most documentation that did exist before the end of the war.The documents that survived and related directly to the killing program were virtually all clasified and stamped "Geheime Reichssache", (Top Secret).Hitler ordered that the killings not be spoken of directly in German documentation or in public statements.
